# Common Sense Gov't

Note to OBAMA - failure to openly support recall efforts and their struggle to keep some form of collective bargaining alive in Wisconsin, is not consistent with principles below:

You can NOT completely take all money out of Politics, but you can put common sense limits on it  
"Let us come reason together"

Thomas Paine

## - Respect USA Bill of Rights

Freedom from extreme + radical ideology governing our lives  
Our Constitution is based on separation of Church and State  
The words: "GOD Bible Christ" not mentioned in US Constitution  
Patriot Act Oct 26, 2001 *curious* gives Gov't right to spy on everything?  
Does 2<sup>nd</sup> Amendment give everyone right to own a machine gun?

*Not sure this is what  
Founding Fathers  
had in mind.*

## - Women + Men will participate equally in GOVT

Women should have the same opportunities as men  
To influence the development at all levels of our society

## - Adopt citizen trusted INTERNET public voting system

Utilize internet for both public polling + final voting process  
Provide secure ballot box voting for those wishing anonymity  
Greatly simplify process: 1 man = 1 vote = 1 soc. sec# = birth/citizen doc  
No prolonged **WARS** unless vast majority of citizens approve  
We must stop wasting our national treasures on senseless wars
