

Current System is broken

Proposed model →

DUAL-PAYER MODEL

- Why do general healthcare costs keep rising?
- Why do we have highest cost / person in the world?
- Why do we have very high infant mortality rate?
- Why are medical insurance premiums so high?
- Why are costs for drugs + medicines so high?
- Why are people with pre-existing conditions denied?
- Why are so many people going without healthcare?
- Why are medical student's education costs so high?
- Why isn't U.S. training more doctors and nurses?
- Will my tax dollars be used to pay for abortions?
- Who decides eligibility for expensive procedures?
- Will there really be "death panel" review groups?
- Why not more Healthcare clinics for the poor?
- Why doesn't medical industry streamline itself?

What solutions can private sector offer?

What solutions can public sector offer?
